## **Stellar Phoenix PowerPoint Recovery**

Version 1.0

### **User Guide**

## Overview

Stellar Phoenix PowerPoint Recovery is designed to recover corrupted Microsoft PowerPoint (.ppt\pptx) files. This software scans all PowerPoint files and uses an advanced algorithm to restore PowerPoint files back to their original state. The recovered files can either be saved to their original location on the hard disk, or to any user-specified location.

You can preview the PowerPoint files before saving to a location. You can search for PowerPoint files in folders and drives. You can save all or individual files. In addition, you can save files to original location or specific location.

## Key Features of Stellar Phoenix PowerPoint Recovery

- Recovers Powerpoint files with all formatting and attributes
- Recovers PowerPoint files same as original
- Preserves everything when restoring files
- Supports MS PowerPoint 2000, XP(2002), 2003 and 2007
- Compatible with 2000/ XP/ 2003/ Vista

## Repairing PowerPoint Files

Stellar Phoenix PowerPoint Recovery recovers Microsoft PowerPoint files and allows you to save files to your preferred location. You can recover individual or multiple files by using PowerPoint Recovery.

### To recover Microsoft PowerPoint files:

1. Click  icon or on the File menu, select **Add file to tree view**.
2. In the Stellar Phoenix PowerPoint Recovery box, add files by using one of the following:
  - **Select individual file**
    - Click **Select File**. In the Open dialog box, locate and select the PowerPoint file. Click **Open**, and then click **Add**.
  - **Select multiple files**
    1. Click **Select Folder**. In the Browse for Folder dialog box, browse and select the required Folder. You can also select a volume. Select folder or volume. Click **OK**, and then click **Add**.
    2. In the Stellar Phoenix PowerPoint Recovery dialog box, all files that are found in the selected folder or drive are listed. Check the checkboxes of files that needs to be recovered. Click **Add**. All files will be listed in the left pane under Stellar Phoenix PowerPoint Recovery node.
  - **Search files**
    - Click **Search File(s)**. In the Select Drive box, select a drive from **Look in** listbox. Click **Start**. All files that are found are listed in the Stellar Phoenix PowerPoint Recovery box. In addition, you can search in folder, click **Search in Folder**. In the Browse for Folder dialog box, locate and select a folder. You can also specify a drive. Select a folder or volume. Click **OK**. Check Search in Subfolders checkbox if you want to search files inside the subfolders also. Click **Start**. All files that are found are listed in the Stellar Phoenix PowerPoint Recovery box. Check the checkboxes of files that needs to be recovered and click **Add**.
3. All selected files are listed in the left pane. Check the checkboxes of files that needs to be recovered. Click  icon or on File menu, select **Start repair**. In the Save Document

dialog box, select **Default location of file** or **Select New Folder**. Former will save the file to its original location from where it is added. Latter allows you to specify new destination. In addition, you can select **Raw Recovery** from the Tools menu to recover all files listed in the tree.

4. Click **OK**. All selected files are saved at the specified location.

**Note:** You cannot recover .pptx files by using Raw Recovery feature of Stellar Phoenix PowerPoint Recovery.

## Adding Files

You can add individual files or multiple files in the PowerPoint Recovery software. In addition, you can specify a folder or a volume as a folder such that all PowerPoint files can be added from that folder.

### To add individual file:

1. Click  icon on the toolbar, or on **File** menu, select **Add File to Tree View**.
2. In the Stellar Phoenix PowerPoint Recovery dialog box, click **Select File**.
3. In the Open dialog box, locate and select the required PowerPoint file. Click **Open**, and then click **Add**.

### To add multiple files:

1. Click  icon on the toolbar, or on **File** menu, select **Add File to Tree View**.
2. In the Stellar Phoenix PowerPoint Recovery dialog box, click **Select Folder**.
3. In the Browse for Folder dialog box, browse and select the required Folder. You can also select a volume. Select folder or volume. Click **OK**, and then click **Add**.
4. In the Stellar Phoenix PowerPoint Recovery dialog box, all files that are found in the selected folder or volume are listed. Check the checkboxes of files that needs to be recovered. Click **Add**. All files will be listed in the left pane under Stellar Phoenix PowerPoint Recovery node.

## Searching Files

You can search for Microsoft PowerPoint files in your computer by using search option of the software. In case, you are unaware of the exact location of required file you can search the file easily.

### To search files from drive:

1. Click  icon. In the Stellar Phoenix PowerPoint Recovery dialog box, click **Search File(s)**.
2. In the Select Drive box, select a drive from **Look in** listbox. Click **Start**. All files that are found are listed in the Stellar Phoenix PowerPoint Recovery box.

### To search files from folder:

1. Click  icon. In the Stellar Phoenix PowerPoint Recovery dialog box, click **Search File(s)**.
2. In the Select Drive box, click **Search in Folder**.
3. In the Browse for Folder dialog box, locate and select a folder. You can also specify a drive. Select a folder or volume. Click **OK**. Check Search in Subfolders checkbox if you want to search files inside the subfolders also.
4. Click **Start**. All files that are found are listed in the Stellar Phoenix PowerPoint Recovery box.

## Stellar Phoenix PowerPoint Recovery

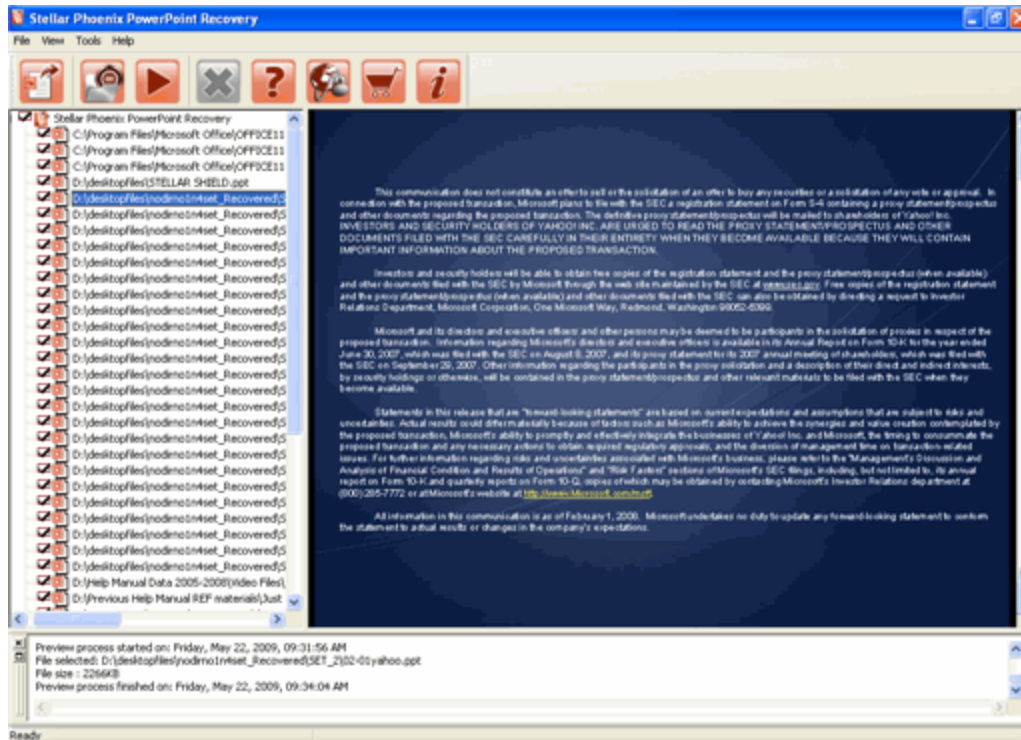

Stellar Phoenix PowerPoint Recovery

### Viewing Preview

Stellar Phoenix PowerPoint Recovery shows preview of corrupted PowerPoint files that helps you to evaluate files before repairing. If you want to preview a file, click on the required file in the tree view.

### To preview the file:

- Click on a file in the left pane

## Removing Files

You can remove files from the Stellar Phoenix PowerPoint Recovery node. If some files are added that are not required then you can remove these files without exiting the PowerPoint Recovery software.

### To remove files:

1. Check the checkboxes of file that needs to be removed.

2. Click  icon from toolbar or on the File menu, select **Remove from Tree**. All selected files will be removed.

**Note:** By default, all files are checked when you add files in the tree. If you click Remove files from tree icon all files will be removed. Therefore, ensure that you checked or cleared the checkboxes of required file.

## Log Report

Log window shows the progress of the current process. The log window displays messages such as indicating the beginning of the process, end of the process, name of the corrupted file.

- **To enable log window**
  - On the View menu, select **Message log**
- **To save log information**
  - On the Tools menu, select **Save Log**. In the Save As dialog box, specify the destination where log file should be saved. Click **Save**.
- **To clear log information**
  - On the Tools menu, select **Clear Log**.
